

NATIONAL TELEVISION AND COMPUTER RECYCLING SCHEME

At the moment, too much **electronic waste** ends up in landfill. **TechCollect** is a government approved recycling program that allows you to **recycle** your unwanted **televisions** and **computers** in an environmentally sustainable way.

We're working with partners across the country, so watch out for **TechCollect** drop-off sites and events near you. We can help you do the right thing, so don't throw it out, bring it in – **it's free**.

Computer equipment, any brand of desktop, laptop, monitors, mice, keyboards, cables, drives, and computer-related peripherals

Home office equipment, printers, scanners

Televisions
